

Gulf Chainbar Oil

Industrial Chainbar Oil

Product Description

Gulf Chainbar Oil is high-quality lubricant designed based on highly refined mineral base oil with a special additive package to provide very good adhesive strength at the chain to reduce oil consumption, effective wear protection and excellent lubrication. **Gulf Chainbar Oil** is specially developed to provide adequate lubrication of chains and slides of Chainsaws to avoid breaking of chain or getting jammed for a wide range of operating temperatures. It meets ISO 6743-1, category L-AC Specification.

Features & Benefits

- Very good adhesive strength provides effective wear protection and helps in avoiding oil loss due to gravity thus helps in reducing oil consumption.
- It has excellent lubricating properties, helps to prevent premature chain failure and extend working life.
- Suitable for operation at wide range of operating temperature.
- Has no harmful or unpleasant odour.

Applications

- Recommended for use on the Chains and slides of Chain Saw.

Note: It is not suitable to lubricate the engine of the Chain saw.

Specifications & Typical Properties

Meets Specifications		ISO VG 150
ISO 6743-1, Category L-AC		X
Typical Properties		
Test Parameters	ASTM Method	Typical Values
Density @ 15°C, Kg/l	D 4052	0.8865
Viscosity @ 40 °C, cSt	D 445	151
Viscosity Index	D 2270	96
Flash Point, °C	D 92	250
Pour Point, °C	D 97	-12
Copper Corrosion	D130	1

June 2015

Properties mentioned above are typical only and minor variations, which do not affect the product performances, are to be expected in normal manufacturing. The above information is based on past history of the grade only and must not be construed as a guarantee of performance. Follow equipment manufacturer's recommendations for performance level and viscosity grade. The Material Safety Data Sheet for this product is available from your nearest Gulf Distributor.
