

# SAFETY DATA SHEET

**Gulf Super Duty CF, SAE 30** 

02105/30/ASG

Issuing Date 05-11-2023 Revision Date 05-11-2023 Version 1

# SECTION 1: IDENTIFICATION: PRODUCT IDENTIFIER AND CHEMICAL IDENTITY

**Product identifier** 

Product Name Gulf Super Duty CF, SAE 30

Product Code(s) 02105/30/ASG

Other means of identification

UN number or ID number Not Applicable

Recommended use of the chemical and restrictions on use

Recommended use Engine oil

Uses advised against Any other purpose.

Suppliers name, address and phone number

AR Oil Distribution Pty Ltd official licensee of Gulf Oil International for Australia 12 Greycliffe Ave Pennant Hills NSW 2120

Australia

Tel: +61 (0) 411404594

AB Equipment Ltd official licensee of Gulf Oil International for New Zealand 12 Pukekiwiriki Place

Highbrook Drive

Auckland

Tel: (+) 64 0800 30 30 90

E-Mail: sds@gulfoilltd.com

## Emergency telephone number

AU: (+) 61 1 800 686 951 (Code 334276) NZ: (+) 64 800 451719 (Code 334276)

Poison Information Center telephone (AU) 13 11 26, (NZ) 0800 764 766 number

# **SECTION 2: HAZARDS IDENTIFICATION**

#### GHS Classification

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Label elements

Signal word

None

**Hazard statements** 

None

**Precautionary Statements** 

None

Other hazards which do not result in classification

Not applicable

# **SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS**

Chemical name	CAS No	Weight-%
Highly refined base oil (Viscosity >20.5 cSt @40°C)	-	60% - 100%
Highly refined, low viscosity mineral oils/hydrocarbons (Viscosity >7 - <20.5 cSt @40°C)	-	1% - 2.5%

Product containing mineral oil with less than 3% DMSO extract as measured by IP 346. The highly refined base oil may be described by one or more of the following generic CAS identifiers: 64742-54-7, 64742-65-0, 64742-52-5, 64742-53-6, 64742-62-7, 64742-57-0, 64742-01-4, 64741-88-4, 64741-96-4, 64741-97-5, 64742-55-8, 64742-56-9, 64741-89-5, 8042-47-5. See Section 15 for additional information on base oils.

The remaining composition is a mixture of non-classified ingredients or additives below the threshold for disclosure

## **SECTION 4: FIRST AID MEASURES**

Description of first aid measures

**General advice** If symptoms persist, call a physician.

**Inhalation** Remove to fresh air.

**Skin contact** Wash off immediately with soap and plenty of water. Remove and wash contaminated

clothing before re-use.

Eye contact Rinse thoroughly with plenty of water, also under the eyelids. Keep eye wide open while

rinsing.

Ingestion Clean mouth with water. Drink plenty of water. Do not induce vomiting without medical

advice.

**Protection of First-aiders**Use personal protective equipment.

Most important symptoms and effects, both acute and delayed

Main Symptoms None

Indication of any immediate medical attention and special treatment needed

Notes to physician Treat symptomatically.

# **SECTION 5: FIRE FIGHTING MEASURES**

#### Extinguishing media

#### Suitable Extinguishing Media.

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use CO2, dry chemical, or foam. Water spray or fog. Cool containers / tanks with water spray.

#### Extinguishing media which shall not be used for safety reasons

Do not use a solid water stream as it may scatter and spread fire.

#### Specific hazards arising from the chemical

In the event of fire and/or explosion do not breathe fumes. Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke). Thermal decomposition can lead to release of irritating gases and vapors. This material creates a fire hazard because it floats on water.

### **Hazardous decomposition products**

Incomplete combustion and thermolysis produces potentially toxic gases such as carbon monoxide and carbon dioxide

#### Advice for firefighters

### Special protective equipment for fire-fighters

Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear

Hazchem code Not listed.

# **SECTION 6: ACCIDENTAL RELEASE MEASURES**

### Personal precautions, protective equipment and emergency procedures

Remove all sources of ignition. Ensure adequate ventilation.

Advice for non-emergency

personnel

Extremely slippery when spilled.

Advice for emergency responders Use personal protection recommended in Section 8.

#### **Environmental precautions**

Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system.

## Methods and material for containment and cleaning up

Dike to collect large liquid spills

Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Take up mechanically and collect in suitable container for disposal. Clean contaminated objects and areas thoroughly observing environmental regulations.

#### Reference to other sections

See Section 8/12/13 for additional information

# **SECTION 7: HANDLING AND STORAGE**

#### Precautions for safe handling

Ensure adequate ventilation. Do not eat, drink or smoke when using this product. Handle in accordance with good industrial hygiene and safety practice. Keep away from open flames, hot surfaces and sources of ignition.

# Conditions for safe storage, including any incompatibilities

#### **Technical measures/Storage conditions**

Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from open flames, hot surfaces and sources of ignition.

## Incompatible materials

Oxidizing agent

Recommended use Engine oil

# **SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

### **Control parameters**

Chemical name	Australia	New Zealand	New Zealand - Biological Exposure Indices (BEI)
Highly refined base oil (Viscosity >20.5 cSt @40°C)	TWA: 5 mg/m <sup>3</sup>	TWA: 5 mg/m <sup>3</sup> STEL: 10 mg/m <sup>3</sup>	
Highly refined, low viscosity mineral oils/hydrocarbons (Viscosity >7 - <20.5 cSt @40°C)	TWA: 5 mg/m <sup>3</sup>	TWA: 5 mg/m³ STEL: 10 mg/m³	

Australia - Workplace Exposure Standards for Airborne Contaminants.

New Zealand - Workplace Exposure Standards and Biological Exposure Indices.

#### Appropriate engineering controls

**Engineering controls** Ensure adequate ventilation, especially in confined areas.

Personal protective equipment

Engineering controls should be considered as the first line of protection against adverse exposure to harmful substances, Administrative controls and PPE should be used in the absence of engineering controls or as supplemental controls where engineering controls are insufficient in reducing specific exposures to an acceptable level

## Individual protection measures, such as personal protective equipment

**Eye/face protection** Safety glasses with side-shields.

**Skin and body protection** Long sleeved clothing.

#### **Hand Protection**

For operations where prolonged or repeated skin contact may occur, impervious gloves should be worn. The following glove type may be suitable for handling this product:. Protective gloves complying with EN 374.

Nitrile rubber Glove thickness => 0.38 mm Break through time => 480 min Butyl rubber Glove thickness => 0.64 mm Break through time => 480 min

Glove material suitability will vary depending on specific use conditions. Consideration should be given to variables such as operational characteristics, anticipated contact time, task requirements and other factors relevant to the selection of PPE. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion. Any specific glove information provided is based on published literature and glove manufacturer data. Barrier creams may help to protect the exposed areas of skin. Barrier creams should not be applied after exposure has occurred. Gloves should be replaced regularly and if there is any sign of damage to the glove material.

Respiratory protection

No special protective equipment required. In case of mist, spray or aerosol exposure wear suitable personal respiratory protection and protective suit.

**Revision date** 05-11-2023

**Hygiene measures**Do not eat, drink or smoke when using this product. Handle in accordance with good

industrial hygiene and safety practice. Regular cleaning of equipment, work area and

clothing is recommended.

**Environmental Exposure Controls** Avoid release to the environment.

Thermal hazards None under normal use conditions

# **SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

Information on basic physical and chemical properties

Physical stateLiquidAppearanceclear AmberOdorHydrocarbon-likeOdor thresholdNot Determined

<u>Property</u> <u>Values</u> <u>Remarks</u>

**pH** Not applicable

Melting point / freezing point Not determined Initial boiling point and boiling range Not determined

**Flash point** 242 °C / 468 °F ASTM D 92

Not determined

Evaporation rate Not determined Ignitable substance

Flammability Limit in Air

Upper flammability or explosive

# **SECTION 10: STABILITY AND REACTIVITY**

Reactivity

None under normal use conditions

Chemical stability

Stable under normal conditions.

#### Possibility of hazardous reactions

None under normal use conditions

#### Conditions to avoid

Keep away from open flames, hot surfaces and sources of ignition, Extremes of temperature and direct sunlight

#### Incompatible materials

Oxidizing agent

#### Hazardous decomposition products

Incomplete combustion and thermolysis produces potentially toxic gases such as carbon monoxide and carbon dioxide

# **SECTION 11: TOXICOLOGICAL INFORMATION**

#### Information on the likely routes of exposure

#### **Product Information - Principle Routes of Exposure**

Inhalation None known

Eye contact None known

Skin contact None known

Ingestion None known

# Numerical measures of toxicity - Product Information

ATEmix (oral) >2000 mg/kg ATEmix (dermal) >2000 mg/kg

## Acute toxicity - Product Information

Product does not present an acute toxicity hazard based on known or supplied information.

Acute toxicity - Component Information

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Highly refined base oil (Viscosity	>2000 mg/kg	>2000 mg/kg	>5 mg/L
>20.5 cSt @40°C)			
Highly refined, low viscosity mineral	>2000 mg/kg	>2000 mg/kg	>5 mg/L
oils/hydrocarbons (Viscosity >7 -			
<20.5 cSt @40°C)			

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation Based on available data, the classification criteria are not met.

Serious eye damage/eye irritation Based on available data, the classification criteria are not met.

Sensitization

**Respiratory Sensitization**Based on available data, the classification criteria are not met.

**Skin sensitization** Based on available data, the classification criteria are not met.

**Germ cell mutagenicity** Based on available data, the classification criteria are not met.

Carcinogenicity Based on available data, the classification criteria are not met.

Reproductive toxicity Based on available data, the classification criteria are not met.

Aspiration hazard Based on available data, the classification criteria are not met

Other adverse effects No information available

**Exposure levels** See section 8 for more information

Interactive effects None known

# **SECTION 12: ECOLOGICAL INFORMATION**

#### **Toxicity**

No special environmental measures are necessary

Chemical name	Algae/aquatic plants	Fish	Toxicity to microorganisms	Crustacea
Highly refined base oil	>100: 72 h mg/L	>100: 96 h mg/L		>100: 48 h mg/L
(Viscosity >20.5 cSt @40°C)	_	-		_
Highly refined, low viscosity	>100: 72 h mg/L	>100: 96 h mg/L		>100: 48 h mg/L
mineral oils/hydrocarbons				
(Viscosity >7 - <20.5 cSt				
@40°C)				

## Persistence and degradability

The product is not readily biodegradable, but it can be degraded by micro-organisms, it is regarded as being inherently biodegradable.

# **Bioaccumulative potential**

No information available

#### **Mobility in soil**

The product is insoluble and floats on water. Is not likely mobile in the environment due its low water solubility.

### Other adverse effects

None known

# **SECTION 13: DISPOSAL CONSIDERATIONS**

# Safe handling and disposal methods

Dispose of in accordance with local regulations

#### Disposal of any contaminated packaging

Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.

Observe all label precautions until container is cleaned, reconditioned or destroyed.

#### **Environmental regulations**

Should not be released into the environment

# **SECTION 14: TRANSPORT INFORMATION**

ADG Not regulated Hazchem code Not listed

IMDG Not regulated

IATA Not regulated

# **SECTION 15: REGULATORY INFORMATION**

#### Safety, health and environmental regulations/legislation specific for the substance or mixture

#### **National regulations**

#### Australia

Model Work Health and Safety Regulations (2021). Preparation of Safety Data Sheets for Hazardous Chemicals Code of Practice (2020).

## Standard for Uniform Scheduling of Medicines and Poisons (SUSMP)

No poisons schedule number allocated

#### New Zealand
